### About NCD

To meet the Government campaign of 'Sahkar se Smridhi' there is a need to know the spread and strengths/weaknesses of cooperative structure as it exists today. National Cooperative Database has been designed to:

- Capture data on cooperatives across sectors and regions
- To build a framework that provides Information on Vertical and Horizontal linkages among cooperatives
- To analyse the core information & build platform that is highly user friendly & accessible to all levels of stakeholders for supporting planning and decision making
- Platform also supports live linkage with datasets from other departments to understand the gaps & working on strengthening cooperative movement for positive impact on national economy.
